

First I made 2 white circles, bottom bigger than the top. The bottom one will be touching the ground and the top one will be on top of the bottom one. The top will be the face and the bottom will be the body.

Next I made 2 arms in the middle of the bottom circle. Then on the top circle I made a face: the eyes will be black, one on the right and one on the left. You will also want to have an orange nose that is a triangle. The nose will be below the eyes. Next you will make a mouth out of circles and the circles will be black. They will be the same size.

Next you will make a hot pink scarf. In the middle of the scarf will be light lime green. Next you will make some 2 buttons out of flowers that are in the stamps. The flowers will be lime green.
